CPS 5.0 is a platform for managing licence plate reading portals, compatible with the most popular ANPR-OCR cameras on the market, which integrates **algorithms** for recognizing *brand, model, type, colour and environmental class*. An open, scalable and comprehensive solution, useful for Municipal Police in preventing and repressing crimes, and ideal for implementing a strategic and effective integrated urban and road safety plan.

SELEA

What it is and what it does

CPS 5.0 is an operations centre that has **intelligent** video analysis algorithms for managing **licence plate reading portals.** It is a scalable and open software platform, capable of integrating any licence plate reading camera. This is why it is the solution most appreciated and used by **Local Police** for the control and security of the territory. It provides reports in real time **stolen**, **uninsured** *vehicles,* fake names and **accomplices** *of crime,* thus facilitating the **investigation** *and* **prevention** *of* **theft**. The CPS was developed to be integrated with third-party license plate reading portals: a useful means for those seeking to unify various systems and share information with Law Enforcement agencies, for an effective integrated urban security. Thanks to its peculiarities, CPS is a tool that makes the work of the Local Police quick, powerful and decisive, **because**:

It INTEGRATES
both cameras and licence plate reading portals of other manufacturers.

REPORTS
in real time suspicious vehicles, black lists, accomplices, front men, etc ...

INVESTIGATES
by connecting to the SCNTT (National Centralized System for number plates and transits) of the CEN (Italian Electronic Centre) for integrated security.

It EXPANDS
its functions with advanced Artificial Intelligence algorithms.

It PROCESSES
traffic and pollution data and displays it in statistical graphs.

It COMBINES AND PROTECTS
sharing alarms and information with all public security bodies.

expand your senses

It is considered by the operators for Urban Safety and by Installers, the most complete and versatile software for **Local Police** on the market, *because*:

- ■ **it's the most powerful** and rich in functions
- ■ **it's the most used** by the Local Police and Public Security Forces
- ■ **it's** *easy to use*
- ■ **it's** *offers outstanding results*
- ■ **it's** *an open system*
- ■ **it's** the most reliable
- ■ **it's** **the least expensive** and **exempt from** renewal fees

WHERE TO BUY

Selea has a network of authorised Distributors throughout the country with whom it establishes design and market protection policies.

About us

SELEA is specialized in the manufacture of number plate reading solutions, both for vehicle **access control** and for territorial **security and traffic control**. All of our products are developed and manufactured entirely in Italy. This means that our customers benefit from continuous and comprehensive technical support.

The experience accumulated in over 10 years of collaboration with various law enforcement agencies on video surveillance and license plate reading systems, give us today the opportunity to offer solutions capable of guaranteeing excellent results, and advanced tools for the repression and prevention of crimes (*search for accomplices, stolen vehicles, vehicles without insurance/roadworthiness certificate, traffic analysis, and much more*). These products can be part of an integrated urban security system, allowing the sharing of information between law enforcement and smart cities.
